About our company

Technical Services Georgia Ltd. (TSG) has built on over 15 years of proven quality of service to establish itself as one of the most capable and trusted partners in the Caucasus region. Although primarily focussed on the design and installation of electrical and fire & gas protection systems the company is also one of many talents and vast experience in a wide range of projects and industries.

When you need a reliable partner who is truly understanding of your needs and who can work collaboratively with your team to deliver your project on time and within budget, then please talk to us.

Needs driven approach

We recognise that the need to optimise budgets while driving efficiencies is greater than ever. Today, clients demand solutions that cost less and perform better. Requirements must be met without sacrificing quality of work or safety. Excellence is the minimum standard. To consistently meet high standards, you need a partner with in-depth knowledge and experience. TSG not only meets new standards, but continues to raise them.

Quality as standard

We provide a full range of electrical, construction, mechanical, and other services throughout the Caucasus region. All of our work is carried out to internationally accepted standards and is fully certified with unparalleled after-sales service including on-going maintenance and routine servicing of equipment and systems.

Discover the TSG difference

Whatever your requirements, contact us today for an immediate response to your enquiry. All of our clients enjoy the same first class service, and we offer our services to any interested companies who are looking for representation in the Caucasus Region.
